Your Vision Will Change.
Your Experience Won't.

1-DAY ACUVUE® MOIST MULTIFOCAL Contact Lenses give you the freedom from reading glasses but still enable you to see near, far and in-between.

Do you have Presbyopia?

Lately you may have noticed a change in your vision. Maybe you're having trouble reading that dinner menu, seeing in dim light is more difficult, and even small print is getting tougher to make out. If this sounds all too familiar, you might have presbyopia. But don't worry, this is a common eye condition that happens to maturing eyes.

We are here to help.

Luckily, there's a solution for you with new **1-DAY ACUVUE® MOIST MULTIFOCAL** Contact Lenses. The unique design adapts to your changing eyes, so you can continue to experience excellent vision. Why not come in and give them a go?

To learn more visit www.acuvue.co.uk/multifocal. To book an appointment to try the lenses or if you have any questions, please call our practice today.

**ACUVUE® Brand Contact Lenses,
the number 1 selling contact lens brand across the world.¹**
