Are your contact lenses feeling uncomfortable at the end of the day? Do your eyes feel dry in the evening? We may be able to help!

Due to new advances in contact lens manufacturing there are a wide range of contact lens materials now available, offering more comfortable, long wearing times, whilst still keeping the eyes healthy. So if your current lenses are not as comfortable as you would like let us know, let's try something new.

As well as new materials we now offer OPTI-FREE puremoist contact lens solution. This effectively cleans re-usable lenses and contains HydraGlyde Moisture Matrix, a specially designed moisturizing ingredient to provide 16 hours of comfortable lens wear. This solution is suitable for all types of soft lenses so why not pop in today and give it a try. It makes a real difference to lens comfort by the end of the day.

pure
moist.

We also have brand new moisturizing drops in stock for if you need a bit of extra help at the end of a long day. From manufacturer Spectrum Thea, both Hyabak and Thealoz are preservative free and suitable for use with contact lenses. Both are available in reusable bottles and Hyabak is even produced in handy single use vials. Ask us today which one would be most suitable for you.

Call the practice today and let us improve your contact lens comfort now
