*Precision optical  
solutions delivered  
to you with care  
by professionals*

Three of our lovely ladies enjoying a night out at Chiquito's to celebrate the New Year in Mexican style. Just in case you don't recognise them with the hats, they are Sarah, our optometrist, Kris who is one of our optical assistants, and practice manager and dispensing optician, Cheryl. And no, the rest of us were not under the table!

## 2015 WAS AN INTERESTING YEAR

**We started the year with a sinking feeling**  
The reception area floor was disappearing BUT was quickly repaired and we brightened things up with a new wood floor and carpet. Next came a long list of new equipment to improve patient care, and help the smooth running of the practice. So when you come for your next eye exam, you will feel the benefit of our new OCT scanner and electronic test chart, practice management system for appointment booking and recall and updated computers and phone system!

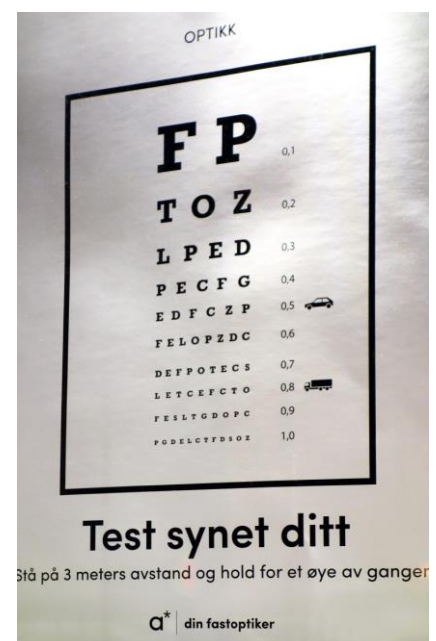

## SO WHAT'S NEW FOR 2016?

We are proud to welcome Lucy Goodwin to our team of clinical assistants. Lucy is planning a career in dispensing optics after completing her A level course, and has been working with us in admin and reception for the last three years.

*New technology for lens measurement gives your Individual lenses an even more tailor-made feel*

## DIY EYE TESTING!

Seen in the window of a Norway optician. Interesting to notice how strict the standard is for professional drivers. And for cars it's the same here in the UK. So if in doubt, please have your up to date eye test and be confident that you are safe.
